Pridento+

Simply the best value 'out of the box' ID card system
DUAL PRINT front/back - Automatic loading

Single feed for on-demand printing

The Pridento features a single card feed that enables you to produce a personalised card on demand in moments.

It allows edge-to-edge and sharp image quality for simple and easy card printing in a compact and highly reliable package.

Rewrite technology is standard

Using special rewritable cards, the Pridento colour ID card printer can print and erase the same card over and over in monochrome blue or black, ideal for visitors passes and temporary badges.

Print extra-long cards for ticketing, accreditation and product labeling.

Rio Pro Extended

Cards up to 110mm long can be printed entirely in full colour using the double- printing mode. The printer can also handle pre-printed cards up to 140mm long, printing a CR80-sized (86 x 54mm) area in full colour in a single pass or an area up to 110 x 54mm using double- printing. In monochrome mode, the entire length of a 140 x 54mm card can be printed. The card feeder is adjustable from 86 to 140mm length. Also available is a variant for 50mm wide cards, typically used for product labeling.

Create your own pricetags

Card Creation Software

It does not matter if the "tags" are intended for the butchery, fishmonger, pastry, bakery or fresh produce department, thanks to the software you can choose a design within the template library and customize it, or create your design from the beginning.

Modify the cards on request

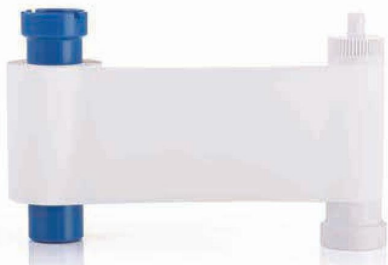

Upgrade prices and all other product information directly to your store thanks to our preset samples, usable on most common software such as World, Corel Draw, Power Point.

Printed in record time

Singularly or in series, issue a front-facing price tag in less than 10 seconds and a duplex in 15 seconds.
